“

Over the past few years, the Forum has rightfully become one of the most prominent international platforms for discussing current issues related to the fuel and energy industry. It is here that top managers of major companies and scientific institutes, as well as politicians and experts from Russia and other countries, evaluate development trends and prospects for the fuel and energy complex, exchange views on the technological challenges the industry faces, and consider problems related to environmental protection and climate change.”

President of the
Russian Federation
Vladimir Putin

 **ROSCONGRESS**

REW
2024

РЭН
2024

Alexander Novak

Deputy Prime Minister of the Government of the Russian Federation

“ Russian Energy Week consistently features specialized, narrowly focused discussions with experts from around the world. The Forum attracts all those interested in the collaborative development of energy and those who wish to work together for the future.”

◆ RUSSIAN ENERGY WEEK INTERNATIONAL FORUM

ESTABLISHED BY DECREE OF THE GOVERNMENT
OF THE RUSSIAN FEDERATION NO. 2026-R DATED
27 SEPTEMBER 2016.

REW is a key international platform for discussing current issues in the development of the fuel and energy complex, interregional cooperation, and the establishment of international relations in the field of energy.

In 2024, the Forum was held at two venues for the first time, combining a business programme with a specialized Exhibition of Equipment and Technologies for the Fuel and Energy Industry.

Anton Kobyakov

Adviser to the President of the Russian Federation

|| The Forum has demonstrated the strong interest of the international business community in cooperating with Russia across a wide range of areas in the energy sector. The discussions, attitudes of foreign participants, and their readiness and openness to dialogue show how eager foreign countries are to play an active role in projects with Russia."

Sergey Tsivilev

Minister of Energy of the Russian Federation

“ Russia consistently advocates for and makes great efforts to strengthen and develop the energy dialogue within BRICS. Our countries definitely play a key role in the global energy agenda and are leaders in both traditional energy and renewable energy sources.”

Sergei Sobyenin

Mayor of Moscow

“ Today, maintaining and creating reliable transport systems for energy resource delivery, generation, and consumer energy efficiency is crucial for achieving excellent results. In the future, despite the growth of the city, economy, and transport, I am confident that our city's energy consumption will not increase.”

Teodoro Nguema Obiang Mangue

Vice President of the Republic of Equatorial Guinea

“ Equatorial Guinea is determined to intensify energy cooperation with Russia and friendly countries. Our country, which is rich in natural resources such as gas and oil, is open to building strategic alliances with partners who wish to do so. We are committed to building a future in which our economies benefit from genuine cooperation based on mutual trust and shared benefits, which will contribute to the development of our societies.”

Abbas Aliabadi

Minister of Energy of the Islamic Republic of Iran

“ Iran has the second largest gas reserves in the world and enormous oil reserves. Iran has significant capabilities in the manufacturing of electrical equipment for distribution, transmission, and production, thermal power plants with high efficiency and renewability, hydroelectric power plants, oil refineries, and petrochemical plants and can collaborate and cooperate in this field with BRICS countries.”

Delcy Eloína Rodríguez Gómez

Vice President and Minister of Oil of Venezuela

“ Venezuela is kind of a fortress – a very strong fortress – like Russia. We can withstand such strong sanctions pressure. Moreover, we are trying to change the vision of the world as a whole so that the world is multipolar and there are many points of view.”

Mohamed Hamel

Secretary General, Gas Exporting Countries Forum (GECF)

“ We need to use all possible energy sources. And here it is necessary for each country to develop an individual programme for the use of various energy sources, to develop its own priorities.”

Sharif Salim Al-Olama

Undersecretary for Energy and Petroleum Affairs of the UAE
Ministry of Energy and Infrastructure

“ Today, our discussions focused on several critical areas, including the ongoing energy transition, advances in technologies, and energy efficiency strategies. The importance of these topics cannot be overstated, since they play a key role not only in driving economic growth in our countries, but also in the well-being of our communities and the health of our planet.”

Amged El-Wakeel

Chairman of the Board of Directors of the Nuclear Power
Plants Authority of Egypt

“ Renewable energy, nuclear energy, and other clean technologies. We will be generating a lot of energy using both nuclear and renewable energy sources.”

Karin Kneissl

Director of the Geopolitical Observatory for Russia's Key Issues (G.O.R.K.I.) Centre at St. Petersburg State University

“

Within BRICS, alternative structures need to be created not only in terms of currency and technology, but the energy transition as well. And who has metals? Russia is in a very privileged position, because it has almost the entire periodic table, if I'm not mistaken."

NJ Ayuk

Executive Chairman of the African Energy Chamber

“

We will be extracting gas and other resources to develop our countries. This is a very clear signal, and we will continue to develop and extract natural resources with Russia for this purpose."

◆ RUSSIAN ENERGY WEEK VENUES

BUSINESS FORUM

Manege Central Exhibition Hall,
1, Manezhnaya Ploshchad

- ◆ Plenary session with the participation of President Vladimir Putin
- ◆ Expanded business programme
- ◆ Exhibition of major energy companies
- ◆ Government and intergovernmental meetings
- ◆ Agreement signings and award ceremonies
- ◆ Press approach with leading media
- ◆ Youth Day

EXHIBITION OF EQUIPMENT AND TECHNOLOGIES FOR THE FUEL AND ENERGY INDUSTRY

Gostiny Dvor, 4, Ulitsa Ilyinka

- ◆ Exhibition of Equipment and Technologies for the Fuel and Energy Industry
- ◆ Presentation of cutting-edge equipment, breakthrough technologies, and innovative projects
- ◆ Industry conference
- ◆ Tour led by Deputy Prime Minister of the Government of the Russian Federation Alexander Novak
- ◆ Agreement signings and award ceremonies
- ◆ Press approach with regional and industry media
- ◆ Youth Day

Russian
Energy Week
2024

Российская
Энергетическая
Неделя 2024

◆ FORUM GOALS

- ◆ Developing multilateral energy cooperation in a multipolar world
- ◆ Showcasing the prospects of the Russian fuel and energy complex as an integral part of the global energy market

◀ FORUM AUDIENCE

- ◆ Representatives of legislative and executive authorities
- ◆ Representatives of foreign governments and businesses
- ◆ Leaders of major energy companies
- ◆ Scientists and experts
- ◆ Young energy professionals
- ◆ Journalists from federal and regional media

◆ REW 2024 BUSINESS FORUM IN FIGURES

◆ GOALS OF THE EXHIBITION OF EQUIPMENT AND TECHNOLOGIES FOR THE FUEL AND ENERGY INDUSTRY

- ◆ Showcase modern equipment and technologies for the fuel and energy complex aimed at developing the domestic market, strengthening existing business relationships, and establishing new inter-industry and international partnerships
- ◆ Unite key industry players to enhance the fuel and energy complex, improving its efficiency and reliability
- ◆ Identify key areas for import substitution of critical equipment and technologies in the sector
- ◆ Attract investment into fuel and energy projects

◀ EXHIBITION AUDIENCE

- ◆ Engineering and technical staff of Russian and international energy companies related to production process management, technical equipment and maintenance, innovation and technological development
- ◆ The academic community, scientific organizations, and participants from related industries interested in studying the current state and development trends of the Russian fuel and energy complex

◆ EXHIBITION SECTIONS

Oil and gas

Metrology

Electric power

Advanced technologies

Coal

Nuclear

Transport and logistics

Renewable energy sources

International exposition

The Exhibition serves as an effective platform for establishing business contacts, exchanging experiences, discussing current issues and challenges in the fuel and energy complex, finding new partners, signing contracts, and expanding market opportunities.

The Exhibition facilitates cooperation between industry representatives, government authorities, and scientific organizations, enhancing the competitiveness of Russia's fuel and energy complex.

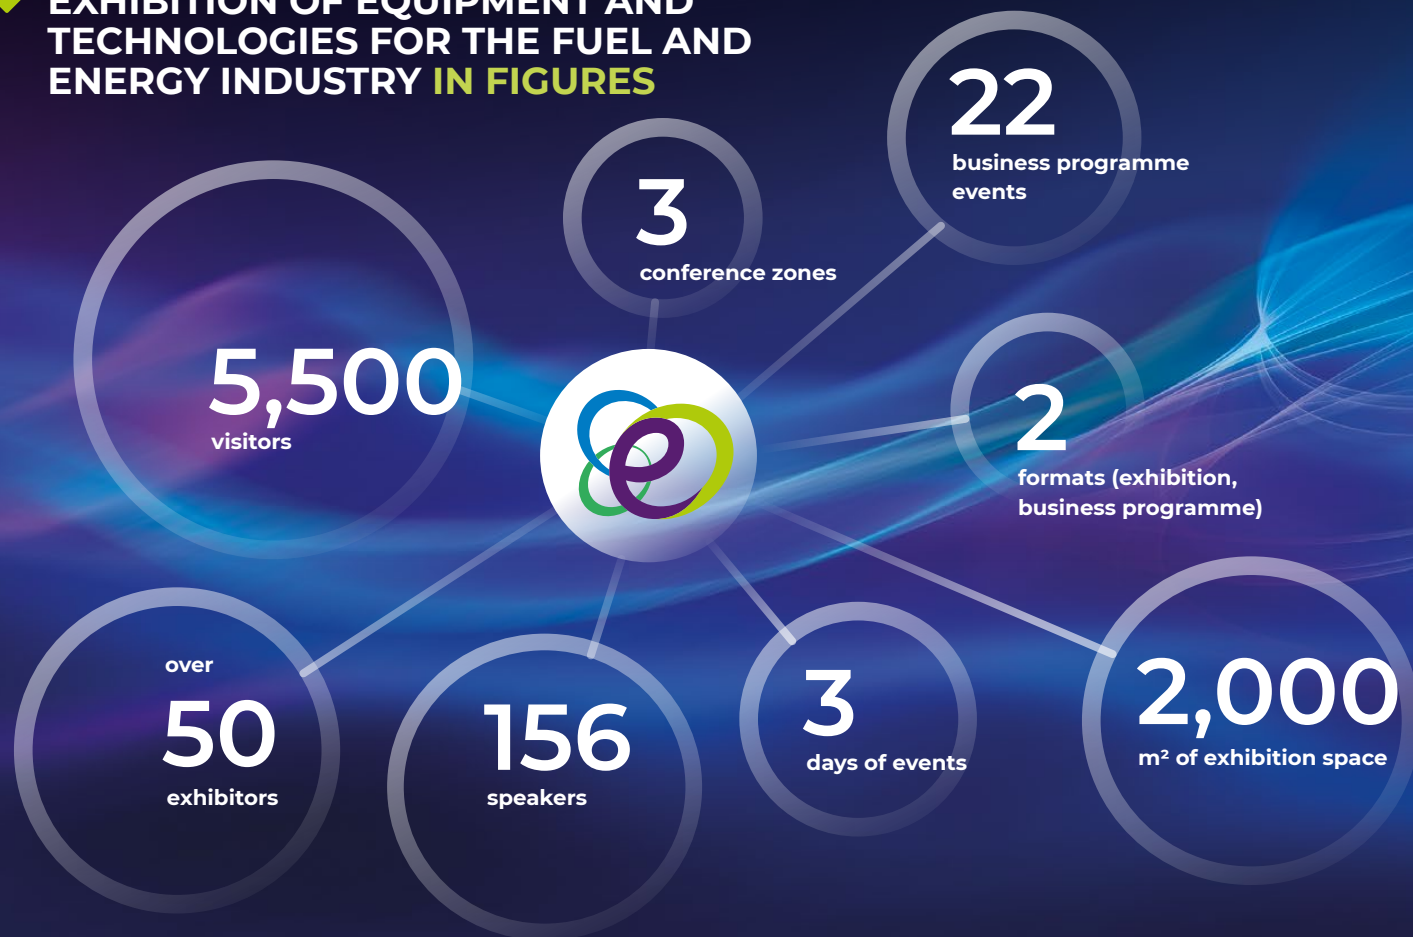

Evgeny Grabchak

Deputy Minister of Energy of the Russian Federation

|| The Exhibition demonstrates that there are plenty of cutting-edge Russian technologies in the electric power industry, the oil and gas sector, and the coal industry. <...> Thanks to this Exhibition, our competitive advantages in the form of technologies will continue to develop and scale up both within Russia and as part of our partnerships in BRICS, as well as in other international organizations."

TECHNOLOGIES FOR THE FUEL AND
ENERGY INDUSTRY **IN FIGURES**

◆ FORUM BUSINESS PROGRAMME

Each year, the Forum business programme at the Manege Central Exhibition Hall addresses strategically important issues concerning the development of the global and Russian energy and fuel industries and brings together representatives of Russian and international government agencies, businesses, and the scientific and expert community.

The thematic pillars of the business programme cover such key challenges as:

- ◆ The development of the international energy dialogue
- ◆ The development of the oil and gas sector, coal industry, as well as electric and thermal power industry in Russia
- ◆ Sustainable development and the climate agenda
- ◆ The scientific and technological development and digital transformation of the fuel and energy industry

The business programme includes panel discussions, roundtables, thematic sessions, business breakfasts, and meetings with representatives of business, ministries, and government agencies.

◆ EXHIBITION BUSINESS PROGRAMME

As part of the Exhibition business programme, representatives of scientific organizations, technology companies, development institutions, and the government exchange views on the development of the fuel and energy industry in the coming years and in the long-term planning horizon.

In 2025, **the 4th 'Territory of Energy Dialogue' Scientific and Practical Conference will be held on the Forum's sidelines.** The conference programme features discussions about key issues concerning the scientific and technological development of the fuel and energy industry and its digital transformation and energy security, forecasting in the energy sector, and statistics, among other things.

The practical focuses of the conference and the energy equipment exhibition will effectively complement each other and help to create an overall picture of the Russian energy sector's scientific and technological potential and how to achieve technological sovereignty of the fuel and energy industry in the long term.

Visitor

◀◆ FORUM PARTICIPANT AT MANEGE CENTRAL EXHIBITION HALL

The status of a Forum Participant provides the opportunity to attend business events and exhibition spaces at the Forum in Manege Central Exhibition Hall, exchange experiences with business leaders, network with experts, government representatives and media, hold talks, and take part in cultural and sports events of REW.

Participation is paid

◆ **PARTNER OF THE RUSSIAN ENERGY WEEK INTERNATIONAL FORUM**

is a special participation format that provides effective opportunities for business promotion, product and service demonstrations at the event venue, as well as exposure through the Forum's information resources.

PARTNERSHIP OPPORTUNITIES:

- ◆ Unique participation formats in the business programme, including the organization of your own event, presentations and press conferences with the invitation of the company partners
- ◆ A wide range of business and exhibition opportunities
- ◆ Information support to maximize the company's visibility among target audience
- ◆ Media exposure through press engagements involving leading federal and regional mass media

◆ EXHIBITOR OF RUSSIAN ENERGY WEEK

The status of an Exhibitor is a unique opportunity for companies in Russia's fuel and energy complex, as well as those from friendly countries, to showcase equipment and present innovative projects within an international-scale exposition attended by over 5,000 visitors.

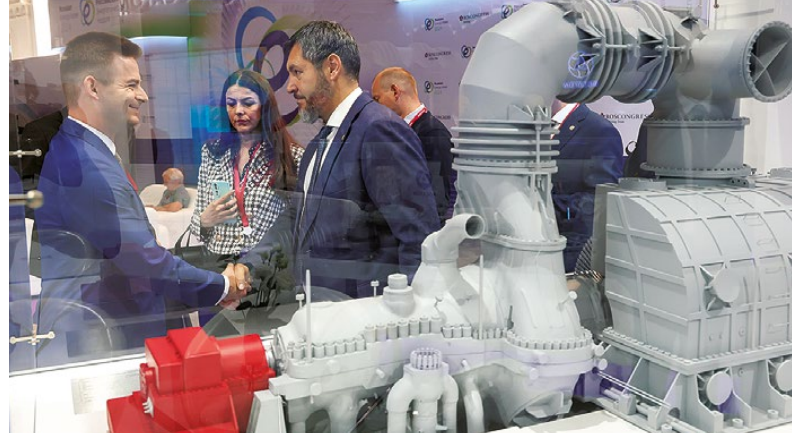

It also provides the chance for a company's stand to be included in an official exhibition tour led by government representatives.

Exhibitor status opens up opportunities for hosting independent events, master classes, and other activities both at the stand and within the Exhibition venue.

WE INVITE:

- ◆ Leading companies that manufacture and supply equipment for the fuel and energy complex
- ◆ Companies providing security services for fuel and energy industry facilities
- ◆ Engineering companies
- ◆ Investment companies and banks
- ◆ Technology companies

◀◀ **EXHIBITION PARTNER OF RUSSIAN ENERGY WEEK**

is a format that offers a wide range of opportunities to showcase a company's active presence in a competitive environment among leading equipment manufacturers, technology providers, and service suppliers.

PARTNERSHIP OPPORTUNITIES:

- ◆ Unique opportunities to organize your company's exhibition stands
- ◆ Participation in an event of the Exhibition's business programme
- ◆ Information support that will maximize your company's visibility at the Exhibition
- ◆ Participation of the Partner's representatives in the Forum with Participant status

◀ EXHIBITION VISITOR AT GOSTINY DVOR

The status of an Exhibition Visitor is an opportunity to participate in a specialized event where leading industry companies showcase the latest developments, promising projects, and modern equipment for the fuel and energy industry. It also provides the opportunity to connect with potential partners and investors.

Participation is free

◆ UNIQUE PROMOTIONAL OPPORTUNITIES

PRESS EVENTS AND MEDIA SUPPORT

The Forum venue offers press points, as well as opportunities to conduct interviews with participants. The schedule of press events is available on the official Forum website. Roscongress Foundation specialists are always ready to help organize press events and provide professional photographers and cameramen.

PROTOCOL AND ORGANIZATIONAL SUPPORT FOR AGREEMENT SIGNING CEREMONIES

This is a unique opportunity to attract the attention of leading media outlets, potential partners, and investors. Support includes the organization of agreement signing ceremonies at REW venues and the sending of announcements to the database of journalists accredited for the Forum. At REW 2024, companies and government organizations signed 28 cooperation agreements and memoranda.

VIDEO SUPPORT AND VIDEO HOSTING SERVICES

The placement of a Partner's video materials on TV screens at the Forum venues will make your company stand out to a unique audience. The frequency and duration of the clips included in the rotation are adjusted in accordance with the business programme.

MULTIMEDIA OPPORTUNITIES

Connecting your stand's TV screens to the live broadcast of the Forum's business programme events will attract attention to your company's stand, set it apart from others, and enrich its programme.

◆ GLOBAL ENERGY PRIZE

REW traditionally hosts a gala ceremony for the Global Energy Prize for outstanding research as well as scientific and technical developments that help to enhance the efficiency and environmental safety of energy sources on Earth in the interests of all mankind.

◆ ENERGY OF THE PEN INTERNATIONAL MEDIA COMPETITION

An award ceremony is held each year for the winners of the Energy of the Pen international media competition, which aims to provide encouragement for journalists, observers, and experts who write about the most pressing issues in the modern energy industry.

◆ YOUTH DAY PROGRAMME

The Youth Day programme takes place at both venues and includes events in various formats that annually bring together more than 2,200 young specialists, students, and schoolchildren to exchange experience and ideas, as well as recap and shape the youth agenda in the fuel and energy industry for the next year.

КТО ХОЧЕТ СТАТЬ ЭНЕРГЕТИКОМ

◆ CULTURAL PROGRAMME

Each year, the Forum's cultural programme incorporates major events that are taking place in Moscow. The 2024 programme included events at the Tretyakov Gallery, the Pushkin State Museum of Fine Arts, the Bolshoi Theatre, the Chekhov Moscow Art Theatre, the 'Russia – My History' historical park, and the Moscow Kremlin State Historical and Cultural Museum and Reserve. The State Kremlin Palace also hosted a special gala concert featuring ballet, vocal, and choral stars.

SPORTS PROGRAMME

The Forum's sports programme traditionally features political and business leaders, as well as star athletes, artists, and public figures. As part of REW 2024, a charity basketball match, Step Together was held at the Irina Viner Palace in Moscow.

FORUM ORGANIZER

The Roscongress Foundation is a socially oriented non-financial development institution and a major organizer of nationwide and international conventions; exhibitions; and business, public, youth, sporting, and cultural events. It was established in pursuance of a decision by the President of the Russian Federation.

The Foundation was established in 2007 with the aim of facilitating the development of Russia's economic potential, promoting its national interests, and strengthening the country's image. One of the roles of the Foundation is to comprehensively evaluate, analyse, shape, and cover issues on the Russian and global economic agendas. It also offers administrative services, provides promotional support for business projects and attracting investment, and helps foster social entrepreneurship and charitable initiatives.

Each year, the Foundation's events draw participants from

209

countries and territories

>5,000

experts

>15,000

media representatives

212

foreign economic partners, associations of industrialists and entrepreneurs, financial, trade, and business associations in 86 countries

293

Russian public organizations, as well as the federal executive and legislative authorities and bodies, and representatives of Russia's regions
